UWA's educational principles

Students are encouraged and facilitated to:

1. master the subject matter, concepts and techniques of their chosen discipline(s) at internationally-recognised levels and standards;
2. acquire the skills required to learn, and to continue through life to learn, from a variety of sources and experiences;
3. adapt acquired knowledge to new situations;
4. communicate in English clearly, concisely and logically;
5. acquire the skills needed to embrace rapidly-changing technologies in a global environment;
6. think and reason logically and creatively;
7. undertake problem identification, analysis and solution;
8. question accepted wisdom and be open to new ideas and possibilities;
9. acquire mature judgement and responsibility in ethical, moral, social, and practical, as well as academic matters;
10. work independently and in a team;
11. acquire cross-cultural and other competencies to take a citizenship and leadership role in the local, national or international community.
