

Examples of broad unit learning outcome statements

From arts, humanities and social sciences

On successful completion of this unit, students should be able to:

- Identify, analyse and classify the patterns revealed with products of the mass media
- Identify and critique the ideologies expressed in the mass media
- Create webpages using Dreamweaver MX and digitalization technologies

From natural and agricultural sciences

On successful completion of this unit, students should be able to:

- Interpret the effect of the environment on plant growth
- Measure plant structure and morphology
- Critically evaluate data on plant responses to the environment

On successful completion of this unit, students should be able to:

- Work scientifically to recognise and describe common earth materials and features, and be able to interpret them in terms of Earth processes and Earth history
- Make interpretations of and draw conclusions about Earth processes from representations of spatial information

Examples from business

On successful completion of this unit, students should be able to:

- Select, describe and evaluate a range of organisational behaviour theories, models and concepts related to individual, interpersonal and group processes, and how these can be applied in organisations
- Select, develop and justify appropriate solutions to organisational problems based on organisational theories, models and concepts.
